KRISHI RASAYAN EXPORTS PVT. LTD.

KEY HIGHLIGHT PRODUCTS

PAUSHAK SUPER STAR

'Patented Yield Enhancer'

Technical: Gibberellic Acid 0.45% SL

Benefits: Boosts flowering, fruiting, and overall plant development. Improves crop quality. Suitable for a wide range of crops.

Crops: Chilli

Usage guideline: 1.5ml-2ml/L of water, to be applied during flowering and fruit development stage

KRI-CalMax

'Best Fertilizer with 9 Essential Nutrients'

Technical: Calcium Nitrate fortified with Magnesium

Benefits: Provides essential nutrients for plant growth. Safeguards against physical disorders. Increases flower and fruit sets, resulting 18-20% higher yield. Improves fruit quality. A-Grade exportable produce, with extended shelf life.

Crops: All crops

Usage guideline: 2.5-3 ml/L of water to be applied at flowering and fruit development stages by Drip/Foliar spray

K-MAX ENERGY

'Soil Health Booster'

Formulated by Ultimate Performance Technology

Technical: MicroAlgae + AMF

K Max Energy is granular Bio Fertilizer with a unique combination of MicroAlgae and AMF (Arbuscular Mycorrhizae Fungi)

Benefits: Enhances root growth that helps in higher nutrient use efficiency and improves soil health. Plants become healthier and more vigorous, and produce higher yields. Help in fighting against abiotic stress.

Crops: All crops

Usage guideline: 4 kg/acre for all field crops and vegetables, 8 kg/acre for sugarcane, pea, potato and bulb crops. To be applied along with basal fertilizer dosage or within 30 days of planting/sowing

KOKSY 55

'Protection from Diseases'

Technical: Copper Oxychloride 47% + Metalaxyl 8 %

Benefits: A powerful fungicide with Dual action- both systemic and contact action. Prevents fungal growth and emergence. Prevents spore germination. Offers broad spectrum protection against fungal diseases. Protective and curative action with longer duration control.

Crops: Potato

Disease: Early and Late blight of Potato

Usage guideline: 500g/acre

KEY HIGHLIGHT PRODUCTS

KEY-SHIELD

'A shield that protects crops from diseases'

Technical: Mancozeb 64% + Thiophanate Methyl 12% WP

Benefits: A powerful fungicide that works in dual mode of action- both contact and systemic. It is protective as well as curative. Broad spectrum of control. Rapidly absorbed by the roots. Contributes to plant health, resulting in lush green and healthy crops. No adverse effects on crops while using recommended dose.

Crops: Tomato

Disease: Late Blight, Leaf Spot, Buck-eye rot

Usage guideline: 500-600 g/acre

SILKY WONDER

'Biological Super Spreader'

Technical: Organic Surface Active Agent containing microbial extracts

Benefits: A true spreader, penetrator and sticker that helps in better absorption of the agro-chemicals, thereby enhancing its effectiveness. It also prevents diseases through its unique organic formula. Provides rain fastness.

Crops: All crops

Usage guideline: 0.5-1 ml/ L water for insecticides, fungicides and PGR.
2 ml/L water for herbicides.

KRILL

'Killer of Lepidopteron Pests', patented technology of Krishi Rasayan

Technical: Emamectin Benzoate 3.5% + Lambda Cyhalothrin 5% WP

Benefits: Controls Lepidopteron pests through Contact and Stomach action. Strong trans-laminar action, thus controls pests hiding beneath the leaves. Provides effective control for long duration. Promotes healthy crops, leading to higher-quality yields.

Crops: Chili

Pest: Pod & Fruit borer, Thrips, Mites

Usage guideline: 100 g/acre

KRI-KREATE

'Protection from Harmful Pests'

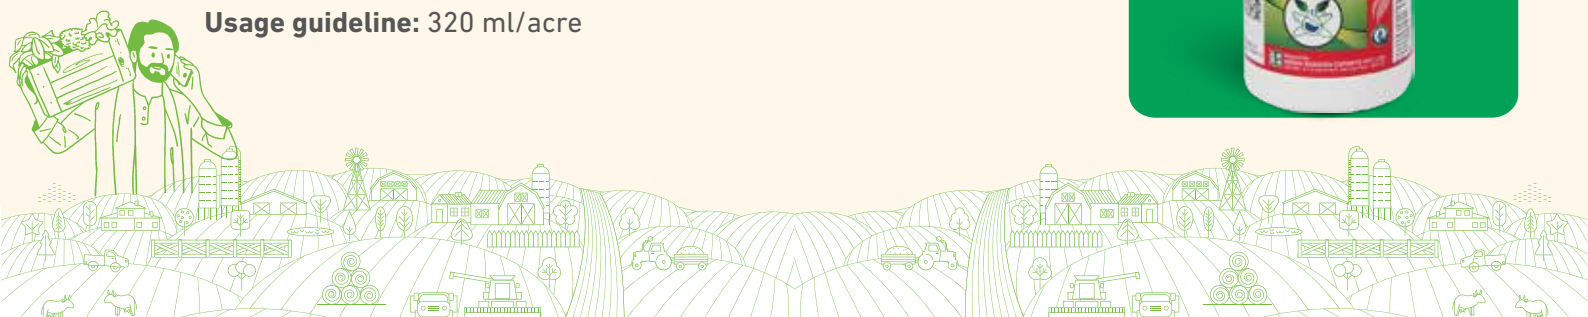

Technical: Dimethoate 20% + Cypermethrin 3% EC

Benefits: Dual-action formulation, acts both by contact and through ingestion. Provides quick and effective control against a broad spectrum of pests, protecting your crops and improving overall yield.

Crops: Brinjal

Pest: Shoot & Fruit Borer, Jassids

Usage guideline: 320 ml/acre

PRODUCT	TECHNICAL	CROP	DOSE	BENEFITS
K Max Energy/ Super	MicroAlgae + AMF	All crops	4 kg/acre for all crops & vegetables, 8kg/acre for sugarcane, pea, potato and bulb crops	Enhances Root Growth That Helps In Higher Nutrient Use Efficiency. Improves Soil Health. Help In Fighting Against Abiotic Stress.
Kazuki Energy/ Gold	Microalgae+ Azospirillum	All crops	500 ml/acre	Improves Chlorophyll Content. Enhances Nitrogen Fixation. Boosts Flower And Fruit Retention. Improves Produce Quality.
Kri-Kelp	Sea Weed Extract	All crops	1 -2 g/L water	Abiotic Stress Management, Crop Nutrition
Masaki Energy	Microbial Consortia Hyta	All crops	500 ml/acre	Enhances Soil Fertility and Structure. Boosts Phosphorus Availability. Root Development. Promotes Vegetative Growth.
Silky Wonder	Organic Surface Active Agents	All crops	0.5 - 1 ml/L water with Insecticide, Fungicide, PGR & 2 ml/L water with Herbicides	A True Spreader, Penetrator & Sticker That Helps In Better Absorption Of The Agro-chemicals, Thereby Enhancing Its Effectiveness. Provides Rain Fastness.
Kri-Calmax	Calcium Nitrate fortified with Magnesium	All crops	500 ml/acre	Boosts Plant Growth With 9 Essential Nutrients. Increases Yield By 18-20%, Improves Fruit Quality. Extends Shelf Life. A-grade Export-quality Produce.
Krishakti Vegetable Special	NPK 6-12-36 Foliar	All crops	1 kg/acre	Enhanced Vegetative Growth, Increase Flowering & Fruit Setting. Increase Size, Weight and Shine Of Vegetables. 12-15% Higher Yield.
Kribor	Di-Sodium Octa Borate Tetra Hydrate	Tuber crops, All vegetables and horticultural crops, Field crops	1-1.5 g/l water	Corrects Boron Deficiency In Soil and Crops. Boosts Cell Division, Flowering, and Fruiting. Enhances Food Transportation in Plants.
Krizinc-EDTA	Zinc 12% (Chelated)	Tuber crops, All vegetables and horticultural crops, Field crops	1-1.5 g/l water	Enhances Chlorophyll Formation, Maximum Zinc Availability For Optimal Plant Growth, Improves Grain Filling and Quality Produce, Promotes Healthy Crops
Krishakti Diamond	Bio-enriched Organic Manure	All crops	200-250 Kg/acre	Improves Soil Fertility and Texture, Increases Organic Content, Enhances Root Development and Aeration, Boosts Water Retention Capacity, Atmospheric Nitrogen Fixation
Paushak Super Star	Gibberellic Acid 0.45% SL	Chilli	1.5-2 ml/ L water	Boosts Flowering, Fruiting & Overall Plant Development. Improves Crop Quality. Suitable For Wide Range of Crops.
Jaigibb	Gibberellic Acid Tech 90% W/W	Vegetables, fruits & flower plants	1 g/ 10 L water	Increase Plant Growth. Better Quality Produce. Stimulating Rapid Stem & Root Growth. Increase Seed Germination Rate.
Jaigibb Power	Gibberellic Acid 40 % WSG	Grapes, Paddy	20-25 g/acre	Helps Overcome Seed Dormancy. Promote Rapid Germination When Applied To Seeds.
Krivita XXL	Paclobutrazole 40% SC	Pigeon pea	30 ml/acre	Controls Apical Meristem Growth, Allowing Nutrients To Flow In All Directions. Enhanced Plant Structure.
Kripon	Ethepon 39% SL	Mango, Tomato, Pineapple, pomegranate	308-500 ml	Improved Coloration, Defoliation, Promotes Uniform and Faster Ripening
Krivita	Paclobutrazole 23 % SC	Mango	6-10 ml	Boosts Flowering. Controls Foliage Growth. Enhances Fruit Quality. Increased Fruit Bud Formation.

Krishi Rasayan Exports Pvt. Ltd. (KREPL), established in 1973, is a leading agrochemical company in India, focused on innovation and technology in the agriculture sector. With over 150 products, including herbicides, fungicides, insecticides, bio-fertilizers, nutrients and plant growth regulators, KREPL enhances crop protection, yield, and soil quality. The company ranks among India's top manufacturers and exporters of agrochemical products. Headquartered in Delhi, KREPL operates 9 manufacturing units, 1 R&D unit, and 22 offices across the country.
